Hi everyone, I'm the OP of Blind 75. Never would I expect Blind 75 to be so famous. 🤩 In 2022, I updated the questions and added study resources for each topic. Check them out at https://www.techinterviewhandbook.org/coding-interview-study-plan/

UPDATE 2022/04: I made **Grind 75** as a better version of Blind 75 - updated questions, filtering, sorting and weekly plans - https://www.grind75.com

Past list of 50 questions can be found at https://www.techinterviewhandbook.org/best-practice-questions/

Stacks not included at all ?
I felt a lot of questions can be solved optimally if we have good understanding of stacks only

Merge K Sorted Lists appears under both **Linked List** and **Heap** categories, so it's actually a **Blind 74**

I am preparing for FB I used this list plus a combination of the most frequent questions from FB.
I would say there pretty similar though I would suggest to that list add sections for parenthesis, more sliding window problems, stack, and probably common hard problems.

Excellent. Thanks!
I would say, if we can expand this list a bit further to about 125 and cover some more medium-hard question that will be great.
